Supplementing Joseph's feedback with some suggestions of my own. BD may need to have a call to consolidate feedback and finalise changes – TBD.

As Joseph has covered a lot of the formatting issues, most of these suggestions address improper terms/language on the platform, which I know is a legacy thing, but we might as well deal with it now given our growing presence in English speaking markets.

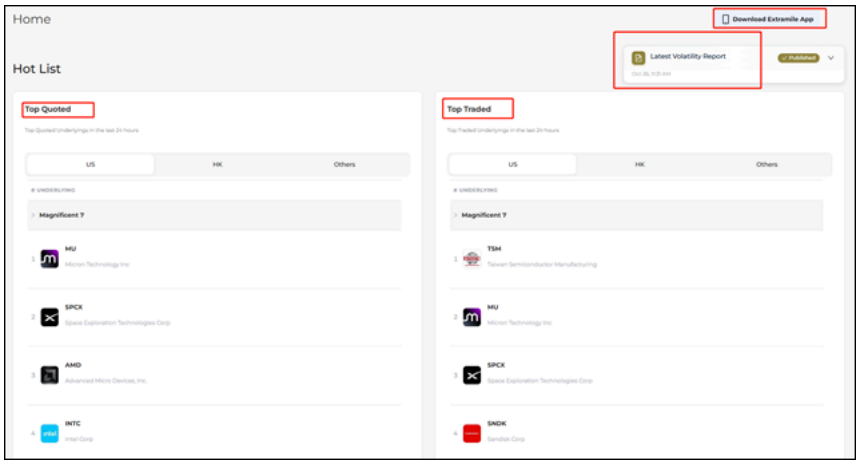

In general, I think terms on the platform should follow sentence case i.e. 'New **q**uote' instead of 'New **Q**uote' as it's more natural and easier to read. The only time we should see consecutive capital letters is when referring to a product e.g. **Fixed Coupon Note,** or a tool e.g. **Combo Generator**

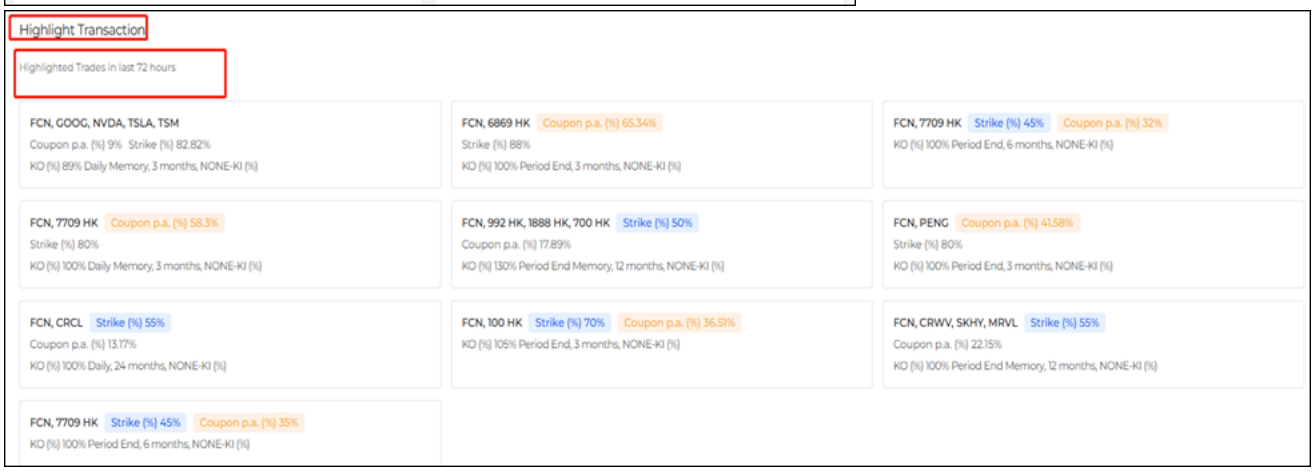

Login page

1. Change 'Highlight Trades' to **'**Highlighted trades'
2. Add a comma after the date (October 26**,** 2026)

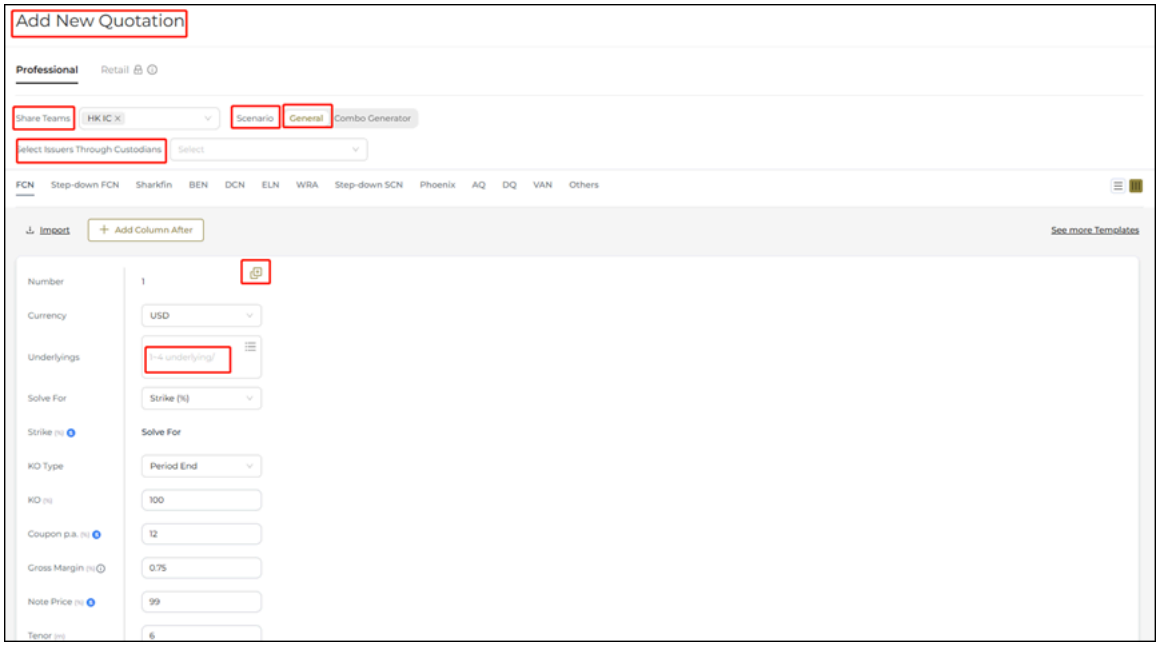

Home page

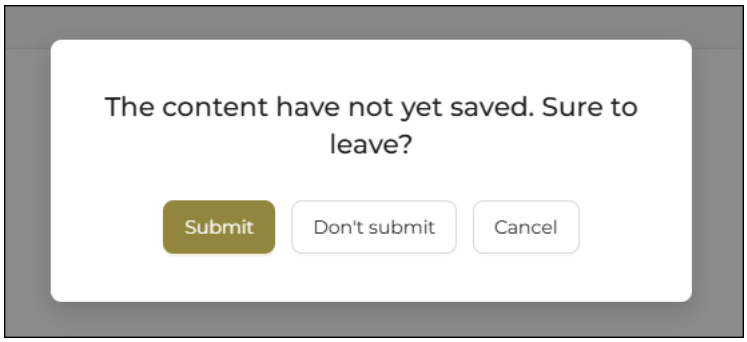

1. Change 'Top Quoted' and 'Top Traded' to 'Most quoted underlyings' and 'Most traded underlyings'
2. Change 'Latest Volatility Report' to 'View our latest volatility report here!'
3. Change 'Download Extramile App' to 'Download the Extramile app'
4. Change 'Highlighted Transaction' to 'Highlighted transactions**'**
5. Change Highlighted Trades in last 72 hours' to "Recent trade highlights"

New Quote Page

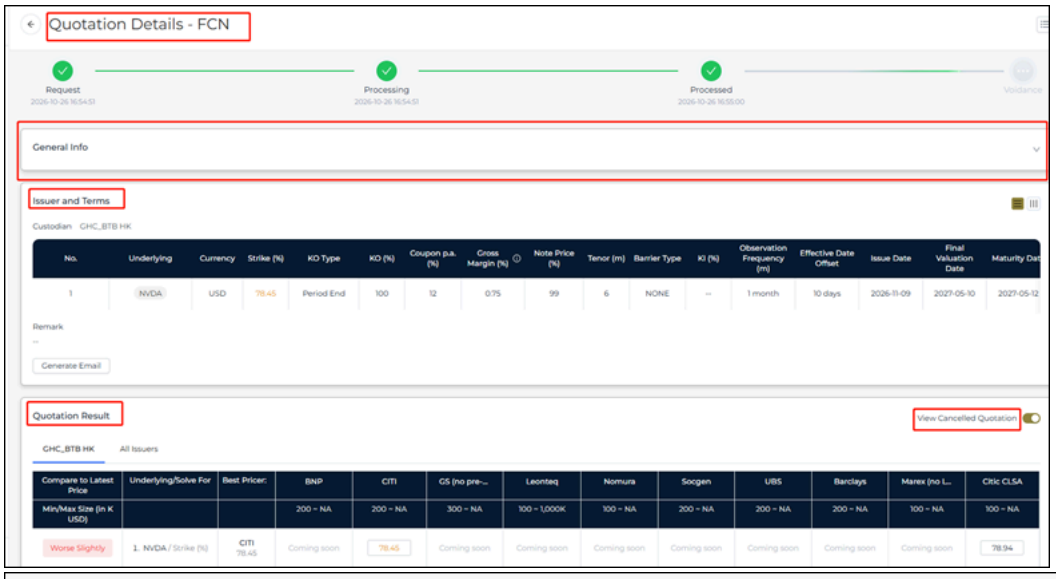

1. Change Add New Quotation to ‘New quote’
2. Change ‘Share Teams’ to ‘Share with team’
3. Change “Scenario” to “Mode”
4. Change “General” to “Single”
5. Change “Select Issuers Through Custodians” to “Select your custodian(s)”
6. Change “Add Column After” to “Insert column”
7. Change “1-4 underlying/” to “Select up to 4 underlyings”

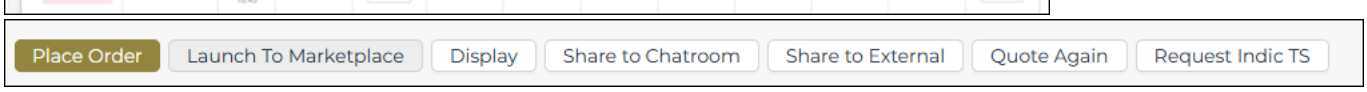

Disclaimer

1. Change to “Discard quote request?”
    a. Options should be “Discard and leave” + “Keep editing”

Quote Results Page

I don't see the point of redirecting the user to an entirely different page. I would follow the format of the old UI when displaying quotes.

1. Either fix 'General Info' in place or delete it entirely. I don't see the point of making it a dropdown menu.
2. Change 'Quotation Details' to 'Quote details"
3. Change 'View Cancelled Quotation' to "Include cancelled quotes"
4. Change 'Issuer and terms' to 'Product terms'
5. Change 'Quotation Result' to 'Pricing results'
6. Change 'Display' to "View pricing grid'
7. Change 'Share to External' to "Share externally'

I'll leave it there for now – thank you team.

Best,
Jack

Hi Joseph,

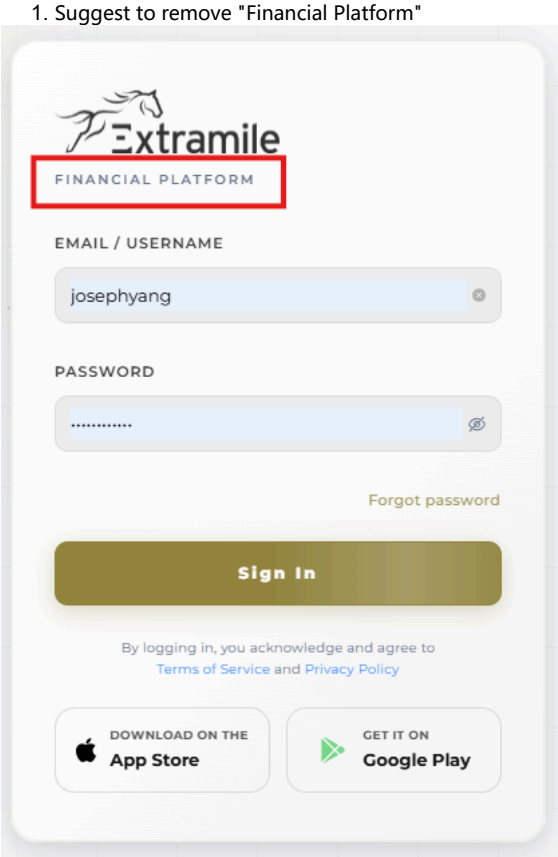

Thanks for the feedback. We have reviewed all feedback and conveyed product requirements to the designer and the team. Arrangement will be made on the developments.

Best regards,
Alex

Login Page:

1. Suggest to remove "Financial Platform"

Function Panel:

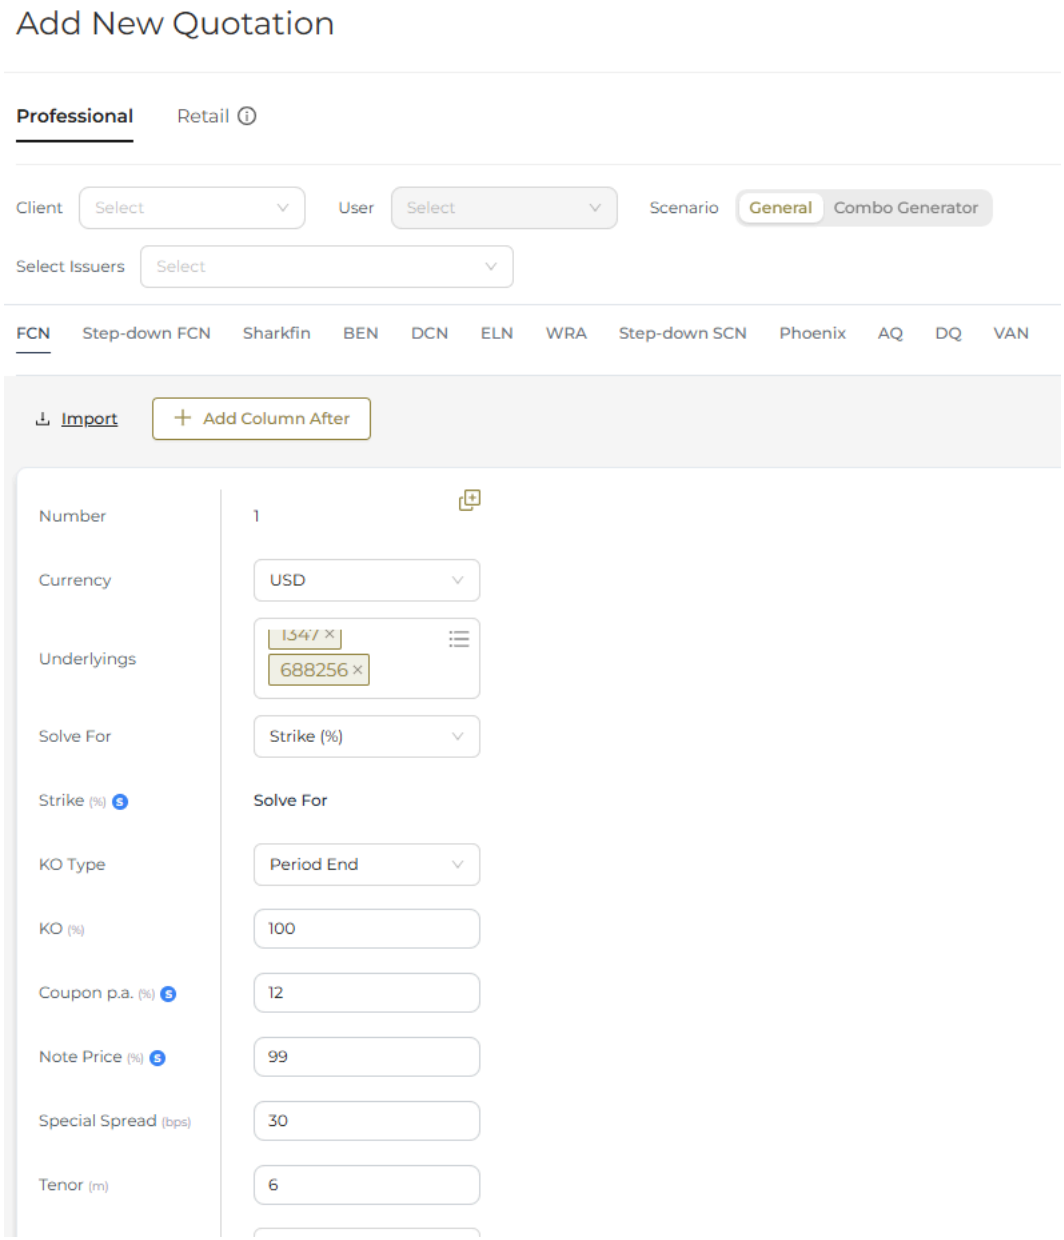

1. Price Discovery: suggest to single out Request for Quote and rename this function as Price Discovery; Daily Quotation List can be merged into a new tab "Advanced Tools", after Ideas Hub. Going forward, all the new tools/functions can be placed here
2. Quote Blotter: Blotter usually refers to trades. Suggest to rename as Quote History
3. Lifecycle Management: suggest to adjust the space to display the full name
4. Ideas Hub: sounds awful. Suggest to rename.

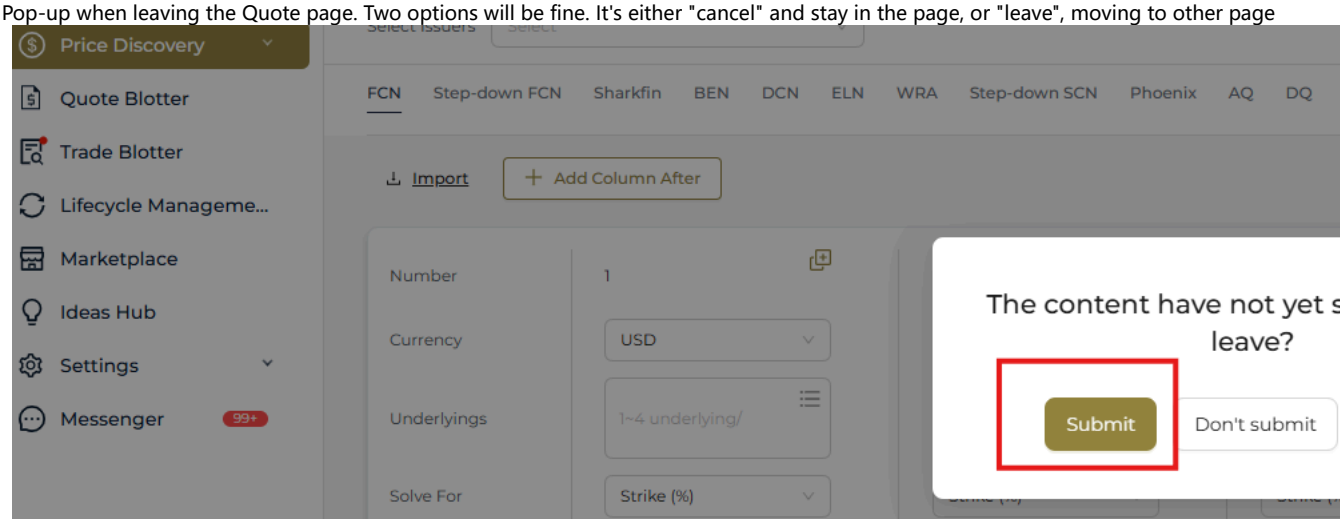

General:

1. Spacing issue is everywhere; need to adjust
2. Dark Mode is awful; suggest to remove it until a better design is agreed

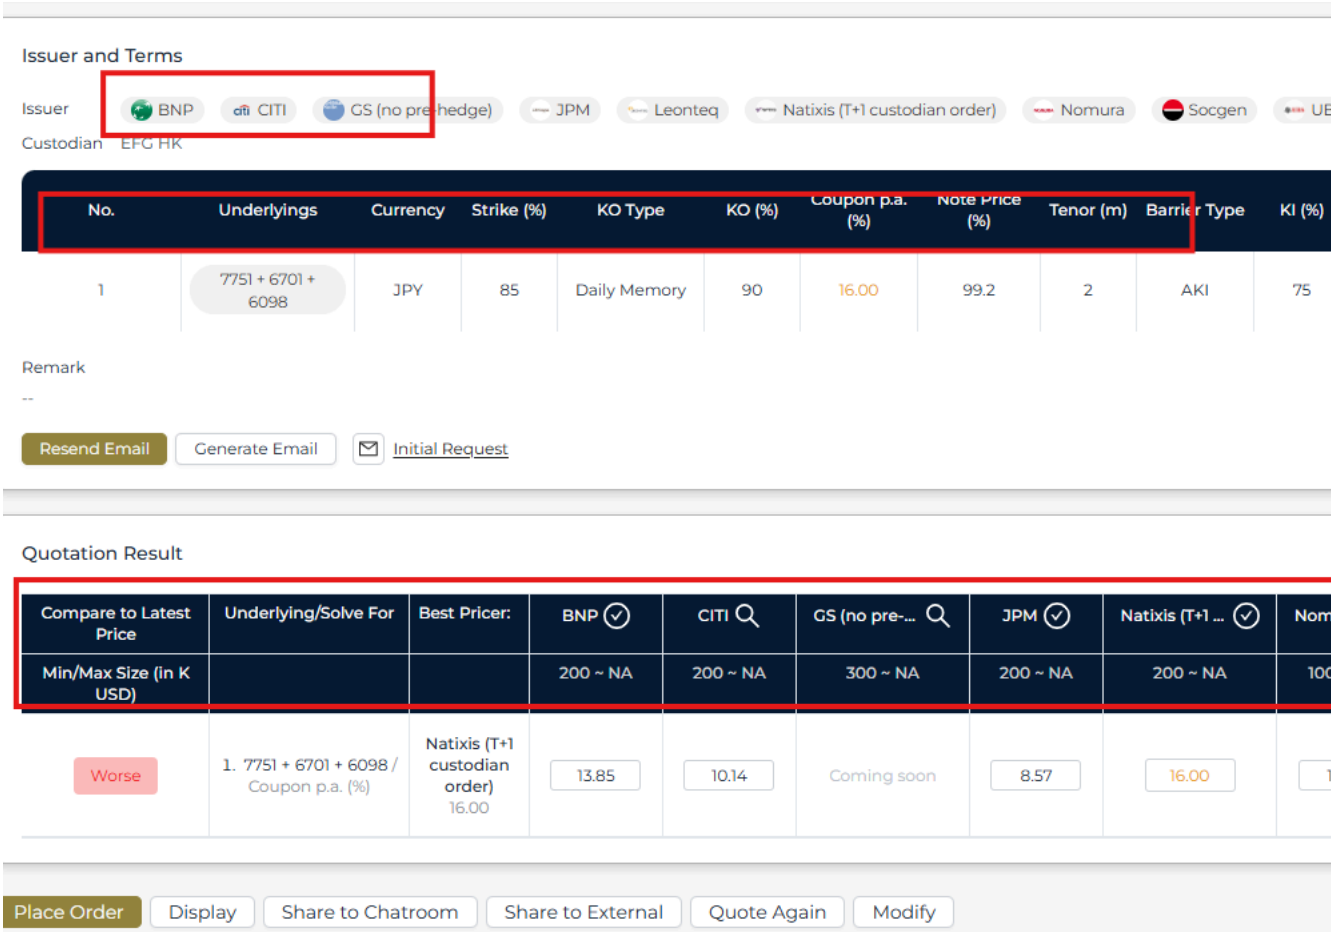

3. Professional/Retail renamed as PI and Non-PI
4. At Distribution site, missing the option to select Custodians
5. Add Column After can be removed; theres already a button down there
6. Underlyings: try to display all input underlyings (should be 4 max)
7. Remark field can be removed; no one use it

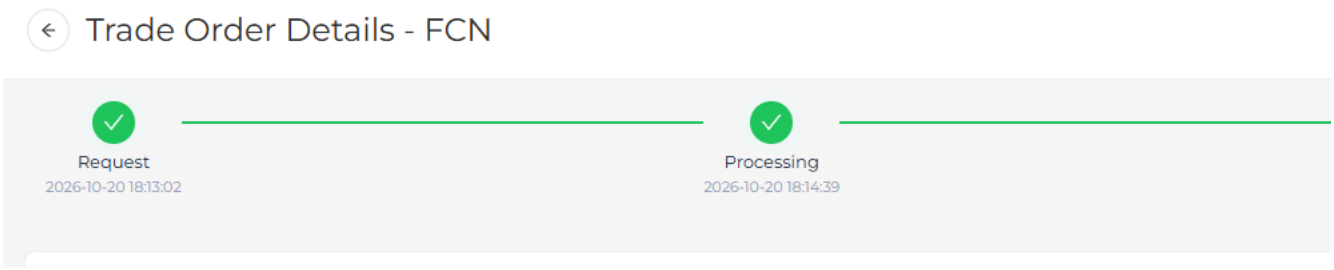

8. Pop-up when leaving the Quote page. Two options will be fine. It's either "cancel" and stay in the page, or "leave", moving to other page

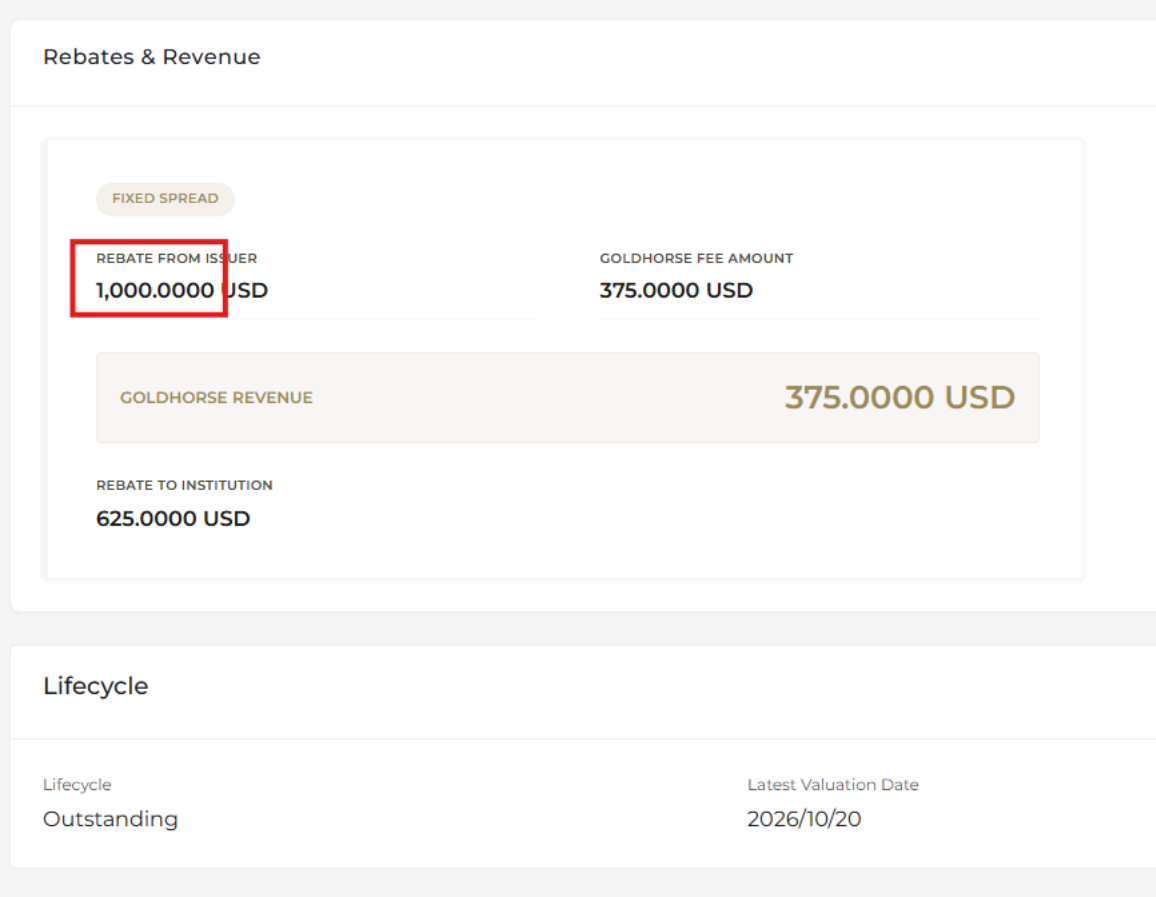

9. "Issuers and Terms" and "Quotation Result" need to be modified: 1) no need to display issuer logos; 2) the weird dark columns

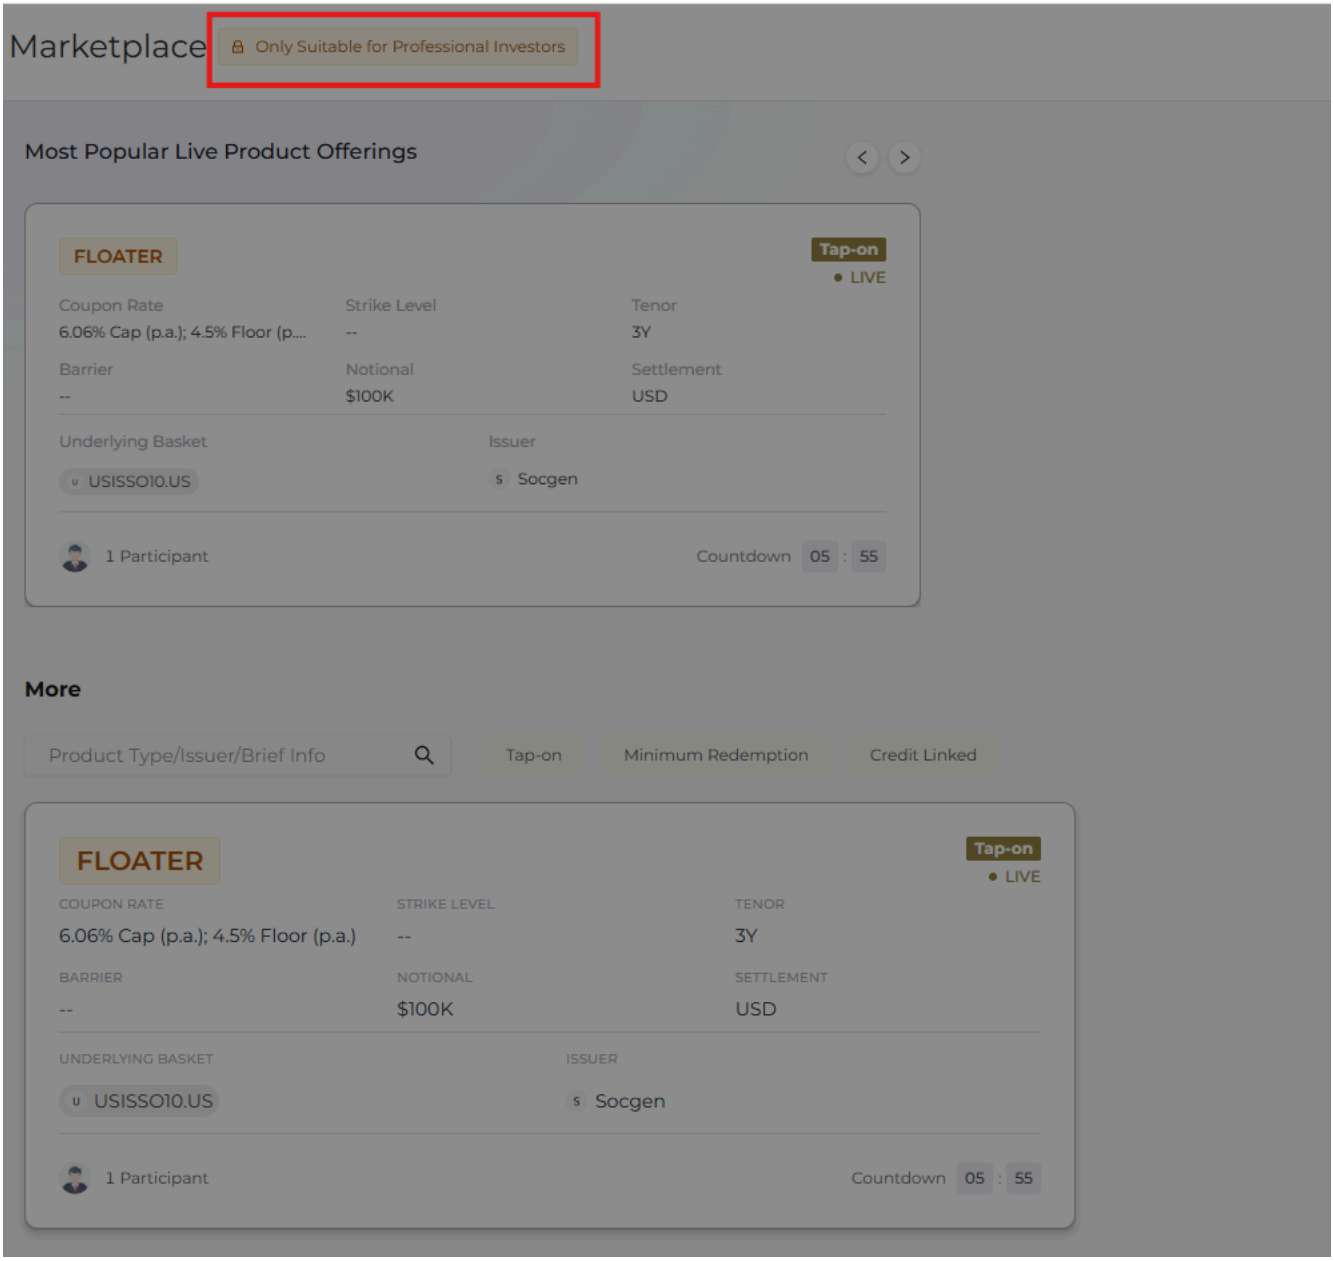

10. Rename "Lifecycle Schedule" to "Lifecycle Management"

11. Too mange decimals; unaligned font size

12. Marketplace: no need to display these anymore; can be removed
